Subject: Confirmation of WCWEP turnout location for your property

Dear Irrigation Company Shareholder:

As you are aware, the Central Utah Water Conservancy District (CUWCD) is designing the Wasatch County Water Efficiency Project (WCWEP). The project will be operated by the Wasatch County Special Service Area #1, a local entity appointed by the County Commission to coordinate water matters in the county. The Project includes pipelines which will deliver pressurized water for sprinkler irrigation to properties or combinations of properties which qualify for participation.

A location for each turnout from the project has been tentatively identified, however we would like you to confirm the location before we complete the project design. The exact location of the turnout may be changed somewhat, based upon your input, however the turnout must be located along the pipe alignment as shown, and no new pipe or extension of lines can be allowed.

Please see Jack Young at the NRCS office located (in the Post Office building) at 125 E. 100 North, Heber city to confirm the location of your turnout. If you cannot confirm this information in person, please contact Jack by telephone (801) 654-4369 or by fax (801) 654-0371. If we do not hear from you by mid-August, we will proceed to final design of the project without your input.

Thank you for your assistance. We look forward to constructing this important project together.

Sincerely,

A handwritten signature in cursive script, reading "Karen M. Ricks".

Karen M. Ricks, P.E.  
CUWCD Project Manager
